ABOUT UNITI GROUP

Uniti Group (ASX: UWL) is a diversified provider of telecommunications services, with three distinct operating business units - Wholesale & Infrastructure (W&I), Consumer & Business (C&B) and Communications Platform as a Service (CPaaS).

Uniti Group listed on the Australian Securities Exchange in February 2019 and has executed its stated strategy of becoming a market-leading constructor, owner and operator of privileged fibre infrastructure, and a provider of value-added telecommunications services in identified profitable niche markets.

In the time since its listing, Uniti has made a number of acquisitions, in each of its three business units. Notably, since mid-2019 Uniti has consolidated the majority of the 'challenger' participants in the greenfields fibre broadband networks market, to make Uniti's W&I business today the definitive challenger in greenfields markets, second only to the government owned National Broadband Network (NBN).

At the core of Uniti Group is a commitment to deliver high quality, high speed telecommunications networks and associated services to its customers, in order to produce strong and growing annuity earnings and, in turn, exceptional long term returns to its shareholders.
